### **Ultra Electronics Canada Defence Inc. Tactical Communication Systems Division**

Ultra Electronics - Tactical Communication Systems is awarded a contract amendment valued at **US \$50,000,000** for the supply of its **AN/GRC-245A HCLOS™** radios, spares, and associated equipment for TRC190 communication shelters for the U.S. Army's WIN-T Program.

(Montreal, September 17, 2008) Ultra Electronics Tactical Communication Systems Division (Ultra TCS) announces the award of contract modifications valued at more than **US\$50,000,000** through the Canadian Commercial Corporation, for the supply of its AN/GRC-245 HCLOS™ radio, TRC190 V1 and V3 kits, spares and associated equipment for the U.S. Army's WIN-T Program under contact no. DAAB07-98-C-F505.

"We are honoured to support the US's Army drive to modernize its tactical communications systems" states Iwan Jemczyk, president of Ultra Electronics Tactical Communications Systems. "The AN/GRC-245A HCLOS™ radio is currently deployed with the armies of several countries. It is gratifying that HCLOS™ has received such broad market acceptance and we are delighted with the positive experiences reported by the soldiers using this radio."

The AN/GRC-245A HCLOS™ radio is a state-of-the-art Software Defined Radio (SDR) using the Software Communications Architecture (SCA) open framework. The HCLOS™ radio is currently shipping with 16Mb/s capacity and is software-upgradeable to 34Mb/s full-duplex capacity. Ultra-TCS has already delivered thousands of HCLOS™ radios to North American and International customers, many of which are operating in the most demanding battlefield conditions.

## About Ultra Electronics

Ultra Electronics is a group of specialist businesses designing, manufacturing, and supporting electronic and electromechanical systems, sub-systems and products for defense, security and aerospace applications worldwide. Ultra Electronics, which employs 3,500 people in the UK and North America, focuses on high integrity sensing, control, communication and display systems with an emphasis on integrated information technology solutions. The Group concentrates on obtaining a technological edge in niche markets, with many of its products and technologies being market leaders in their field.

## About Ultra – Tactical Communication Systems

Ultra-TCS is one of more than 20 companies within the Ultra Electronics Group. It has been delivering tactical radios for more than 30 years and has fielded more than 30,000 radios over its history, making Ultra-TCS the premier global supplier of high-reliability, re-deployable tactical radios. Through its Telemus subsidiary, Ultra-TCS also manufactures and supplies a suite of Intelligence, Surveillance and Reconnaissance (ISR) systems.
