Ultra Electronics launches joint venture with Oryx Energy Projects and Services in Qatar

Under the patronage of the British Embassy, the official launch of **Ultra Electronics Qatar LLC** was held at the 'W' Hotel, Doha on Tuesday 18th October 2011. The event was opened by the British Ambassador to Qatar, His Excellency Mr John Hawkins.

The Company is a joint venture between Oryx Energy Projects and Services and Ultra Electronics Holdings plc and has a local office in West Bay, Doha.

John Anderson, General Manager of Ultra Electronics Qatar LLC, commented:

"Ultra Electronics is committed to developing a long term relationship with the State of Qatar and is looking forward to supporting the country as it grows in stature and capability on the international stage. The establishment of the local joint venture company is proof of this commitment."

Ultra Electronics is an internationally successful defence, security, transport and energy company, specialising in electronics, electro-mechanical and software solutions. Capability areas include battlespace IT, sonar systems, specialist civil transport and energy systems, defence and security equipment and civil and military aircraft equipment.

In addition to presenting these core Ultra Electronics capabilities, **Ultra Electronics (Qatar) LLC** also offers specialist consultancy in the fields of security risk and resilience, training management and organisational development.
