12 November 2019

Ultra Electronics Holdings plc (“Ultra”)

Ultra Electronics awarded Potential \$101 Million IDIQ to Support the AN/BPS radar software management system

Braintree, MA- Ultra Electronics Ocean Systems, based in Braintree, Massachusetts, has been awarded a \$45,161,439 indefinite-delivery/indefinite-quantity, cost-plus-fixed-fee and firm-fixed-price contract for engineering and technical service for the design, development, testing, integration, technology insertion/refreshment and system support of the AN/BPS radar software management system. This contract includes options which, if exercised, would bring the cumulative value to \$100,861,439, and be complete by May 2026. Naval Sea Systems Command will obligate \$1.7M at the time of award which will not expire at the end of current fiscal year.

Tom Link, President of the Ultra Maritime Division commented:

“Ultra Electronics is proud to continue our partnership with the US Navy as the system and software provider on the AN/BPS submarine navigation radar. As technology improves and underwater vessels travel at greater distances and at higher speeds, the challenge of underwater navigation is heightened. Ultra’s role to continue to provide new and improved radar processing and display capabilities for the Navy’s submarine forces will bring about modern navigational displays, improved situational awareness to the operators, and safety to the fleet.”
